“Spirit of Service-Learning Award”

Returned Peace Corps Volunteers of South Florida Inc. (RPCVSF) is committed to building a better South Florida and to encouraging a new generation of informed and engaged citizens. RPCVSF believes that involving students in service-learning is a critically important approach to teaching and learning that will help create this new generation of citizens.

Curriculum-based service-learning is a teaching strategy that allows students to learn and develop through active participation in thoughtfully organized service in the community that is integrated into and enhances academic curriculum. Service-learning provides teachers and students with opportunities to select areas of interest connected to academic studies, do research, perform meaningful service, reflect on that service and demonstrate what they have learned. Service-learning programs increase student empowerment, ownership in outcomes, and commitment to meaningful civic engagement while building a better South Florida/global community.

RPCVSF, in partnership with co-sponsors Miami-Dade County *Teacher of the Year Coalition* and the Armando Alejandro Jr. Memorial Foundation, recognize and honor **K-12** and **college/university educators** each year for contributing to the integration of service into the curriculum and for making a commitment to connect students through service to help meet critical needs in the South Florida and/or global community.
